Jeffreys Home Learning: Year 3 - 4 Autumn Term 2 2026

Choose your home learning from the menu below:

The **Challenge-o-meter** suggests the difficulty or challenge the home-learning may offer. Every term you should attempt **<u>at least</u> one 'EXTRA HOT'** task!

Research and create your own annotated picture of a healthy meal. Think about which foods make a healthy meal and explain why you have chosen the different foods.	**Build or create your own artwork about Antarctica – be inventive!**	**Observe how magnets attract or repel each other and attract some materials and not others. Create a poster to show your understandings**	**Create a book review about your favourite book. You could describe what you like most about the book and how it makes you feel when you read it.**
Come up with your own front page for a newspaper and include your own important article to share with others	**Write about at least two important relationships in your life. Think about why they are so important to you and the impact they have on your life.**	**Create a card game using the times tables skills. Can you also create a division table facts?**	**Create a poem about the continent of Antarctica. You could discuss weather conditions, exploration or how the continent is used.**
Make your own Maths Vocabulary poster based the learning we've done so far this term.	**Design your own fictional book character and describe their personality.**	**Research a famous earthquake that has affected a country in the world. List 10 facts about this event.**	**Create a poster that talks about four different types of helmets people wear, and what the benefits are for each helmet.**
Design and make your own themed 2027 calendar.	**Write or learn a poem about a season of your choice. Learn it off by heart, to perform in front of the class.**	**Write a short description of your understanding of Earth and how we use geographical language to describe it. Eg. hemispheres, latitude, longitude, continents**	**Make a Christmas decoration of your choice.**
