

Ocean Maths

Russell Class

What does Maths look like in Russell Class?

$$7 + 3 = 10$$

Year 1

Number bonds to 10

$$0 + 10 = 10$$

$$1 + 9 = 10$$

$$2 + 8 = 10$$

$$3 + 7 = 10$$

$$4 + 6 = 10$$

$$5 + 5 = 10$$

$$6 + 4 = 10$$

$$7 + 3 = 10$$

$$8 + 2 = 10$$

$$9 + 1 = 10$$

$$10 + 0 = 10$$

Year 2

Number bonds to 20

$$0 + 20 = 20$$

$$1 + 19 = 20$$

$$2 + 18 = 20$$

$$3 + 17 = 20$$

$$4 + 16 = 20$$

$$5 + 15 = 20$$

$$6 + 14 = 20$$

$$7 + 13 = 20$$

$$8 + 12 = 20$$

$$9 + 11 = 20$$

$$10 + 10 = 20$$

Number bonds to 6

$$0 + 6 = 6$$

$$1 + 5 = 6$$

$$2 + 4 = 6$$

$$3 + 3 = 6$$

$$4 + 2 = 6$$

$$5 + 1 = 6$$

$$6 + 0 = 6$$

Systematic Number Bonds:

Roll the dice.

Write the number down that you rolled on your whiteboard.

That will be the number bonds you will make systematically.

Use the counters to help you.

Y2: Whatever number you roll on the dice could become a tens. Eg: Roll 7 that would be 17, roll 5 that would be 15, etc.
